Dear Parents/Guardians,

Welcome to our South Plainfield Elementary Schools. In preparation for the 2017-2018 school year, our programs and procedures have been evaluated and revised where necessary, and new ideas and information have been incorporated into our thinking. As always, our hopes and aspirations are to provide every child with the opportunity to successfully master the skills that will be necessary to meet the challenges of the future. We believe that reading, writing, communication skills, computing and thinking are the building blocks of learning and discovery. We further believe that values, character, attitudes, and behavior have an immeasurable influence on who we are and the happiness we find in our lives. Most importantly, we believe that by setting high expectations during their formative years, we can help your children to develop and embrace the habits that will inspire them to strive for excellence in all they do.

We invite you to participate in our educational programs, co-curricular activities, and special events. Educating your children has to be a shared experience. This handbook will help you to become more familiar with our school procedures and our programs. Please contact us personally if you have questions or concerns as the year unfolds.

We wish you and your children a successful school year with many happy experiences.

Sincerely,

Mr. Ralph Errico, Franklin School

**PUPIL SUPERVISION AFTER SCHOOL DISMISSAL**

Normal dismissal times for students in the Elementary Schools is 2:55 p.m.

If you would like to pick up your child prior to his or her scheduled dismissal time, please enter the Main Office and sign the child out with the receptionist. For safety reasons, proper identification is necessary.

It is school policy that written permission from a student’s parent or legal guardian is required for your child to be released to another parent/relative/friend. Notes authorizing your child’s release to any person other than the student’s parent or guardian shall be given to the student’s teacher with a reasonable amount of advance notice, but not later than the start of school on the day for which early release is requested, except in case of emergency. When taking your child out of school during the school day, the parent/relative/friend must sign the child out with the receptionist. Early pick-up should be prior to **2:55 pm. (1:00 p.m. on early dismissal days)**.

Anyone picking up a child must show positive identification. Because this is a safety precaution to protect your child, no exceptions will be made to this policy. Children will not be released to any individual, without a note OR who is not listed on the emergency card.

We recognize that dangers exist for younger pupils after dismissal, as children are susceptible to risks once they leave school property. Accordingly, the parent or legal guardian of any student in any grade, where the student is either not eligible for, or elects not to use, district-provided transportation, may request, in writing to the Principal, that the school not release the pupil to walk home after dismissal unless the pupil is released to the parent or legal guardian, or an escort previously designated by the student’s parent. Such escort must be at least thirteen (13) years old.

Students must be picked up within ten (10) minutes after the dismissal time of school. During the after-school supervision time, the student will be supervised by school staff in a designated area of the building and will only be released to you or your designated escort. In the event that you or your designated escort does not arrive to pick up the student within the designated time period, the Principal or designee will attempt to contact you or another designated emergency contact using the District’s emergency call procedures. If you cannot be reached, the Principal may report the situation to the Police Department.

In case of an emergency such that you or your designated escort are prevented from arriving to pick up your child at dismissal within the designated time period, your child will be relocated to the Main Office in the school building and will remain there until you or your designated escort arrives. In the event that you or your designated escort does not arrive within one (1) hour after the end of the school day, the Principal may report the situation to the Police Department.

Information for parents interested in the Latchkey Before/After Care program is available online through the district web site, [www.spboe.org](http://www.spboe.org). Payment for the first month of enrollment is due at the time of registration.

**EMERGENCY/HEALTH CARDS**

Emergency and Health cards will be completed online in Genesis when you log in. Please be certain that all information requested is filled in and accurate. Additionally, if you should change telephone numbers for home or work during the year, please update the information as soon as possible in Genesis. It is most important that we are able to reach you immediately in cases of emergency.
ATTENDANCE

School attendance is a basic responsibility of our children and their parents/guardians. Students who are absent from school or chronically late impede their learning. It is the goal of this school district to motivate children to attend school regularly in order to take full advantage of the learning opportunities provided for them. Accordingly, the following procedures and regulations are designed to encourage the regular attendance of our children.

1. **Absence from School**

   It is recognized that certain occurrences may occasionally cause a child to be unable to attend school. The occurrences are recognized as legitimate but are still recorded as unexcused absences. These include:

   - Personal illness
   - Family emergency
   - Death in the family
   - Medical or dental appointments that cannot be scheduled during non-school time
   - Required court appearances

   Only Religious Holidays on the list issued by the New Jersey State Board of Education and Take Your Child to Work Day will be conceded as excused absences.

2. **Reporting Absences**

   If, for any reason, a child will be absent, will be late, the parent/guardian is expected to notify the school nurse by calling 908-754-4620 and follow the recorded directions. The elementary school nurses’ extensions are as follows:

   - Franklin School Extension 342
   - John F. Kennedy School Extension 332
   - John E. Riley School Extension 346
   - Roosevelt School Extension 339

   If a call or message is not received from the parent/guardian when a child is absent, the school will send an automated message to the parent/guardian to notify them of the absence. When there is no parent/guardian notification to the school the student’s absence will be recorded at Truant.

3. **Requesting Work When Children Are Absent**

   Parents/guardians may request work for their children when they are out for two or more consecutive days. When reporting the absence to the nurse’s office on the second consecutive day parents/guardians will need to request homework before 9:30 a.m. Homework may be picked up in the main office after 3:00 p.m. and before 4:00 p.m.
4. **Returning to School After an Absence**

When a child returns to school after an absence, he/she must bring a note from the parent/guardian to verify the absence. The note must include:

1. The child’s name;
2. Date of absence;
3. Reason for the absence; and
4. The signature of the parent/guardian.

The child will present the note to his/her teacher.

5. **PROVISIONS FOR ILLNESS**

Children should not come to school when they are contagious or when they are too ill to learn. **All** viruses – flu, stomach, and viral sore throats are contagious and the child should remain home until he/she is symptom free. Following these simple guidelines will enhance your child’s recovery and help keep the school healthy:

- If your child has a temperature of 100 degrees or higher, they should remain at home until they are fever free for 24 hours.
- If your child is vomiting or has diarrhea, they should remain home until they are symptom free for at least 24 hours.
- If your child is placed on antibiotics, including antibiotic eye drops, they should remain home until completing 24 hours of the medication.

Your school nurse is always available should you have any questions regarding your child’s illness or how long they should stay at home.

6. **Late Arrival and Early Dismissal**

Parents/guardians are requested to notify the school in writing when a child will arrive late or leave early for a medical or dental appointment, etc. When picking up or delivering their child during the school day, parents/guardians must report to the Main Office and sign the child in or out. Children will not be allowed to be taken from school by anyone other than the parent/guardian, or persons listed as emergency contacts, unless a written notice from the parent/guardian is received.

**BUSING**

To be eligible for bus transportation, a child in kindergarten must live ½ mile or more from school. Children in grades 1 through 4 must live 1 mile or more from the school. The district transportation supervisor makes this determination. Parents/guardians will be informed, prior to the start of school, if their child is eligible for transportation.

Transportation is a privilege allowed by the Board of Education. Improper conduct by students that endangers the safety of other students will result in suspension of transportation privileges. Students not authorized to receive transportation by the Board of Education may not ride the buses to or from school under any circumstances because of insurance liability.
While riding the bus:

- Children are to move quickly to their assigned seats. They may not stand or move from their seats while the bus is in motion.
- Children must use seat belts. It’s the law.
- Children are to keep their hands, arms, and other parts of their body inside the bus at all times.
- Children are to keep their feet, legs, and other objects out of the aisles.
- Book bags must be small enough to be kept on their laps.

2. **Prepaid Lunch – MealTime Online**
   Each school has a procedure in place if parents/guardians wish to prepay for their child’s lunch. Visit your school or school district web site and locate the link to the school MealTime Online.

Free and Reduced Lunch Programs

RECESS

Each school will establish its own rules regarding recess. On cold (winter) days, children who are not dressed appropriately with coats, hats, and gloves will be required to remain inside. During the transitional weather days of spring and fall, children will not be permitted to go outside without a jacket or sweater unless they bring a note from home. Students will be kept inside during any inclement weather or when the temperature is below freezing. On days when the weather is questionable, the final decision whether the children go outside during recess will reside with the individual school’s principal.

LATCHKEY PROGRAMS

Parents may enroll children in our Before/After Care Program through the available online program, Community Pass. This can be accessed on the district web site, www.spboe.org, and by clicking on the Parent tab followed by Community Pass. Enrollment takes place prior to the opening of school in September, or at any time during the school year. Payment for the first month of enrollment is due at the time of registration.

STUDENT INSURANCE

The Board of Education has purchased student insurance through the Bill McCloskey Insurance. The policy is excess over any other collectible insurance that may be in effect. Details are forthcoming in a company pamphlet.

LOST AND FOUND

At the end of each school year, several huge bags of lost clothing and belongings, which have accumulated throughout the year, are donated to goodwill organizations. We are hoping that we can do a better job of getting lost items back to their owners this year. You can help by placing your child’s name in his/her clothing, gloves, hats, lunch boxes, pocketbooks, etc. Additionally, if your child wears a jacket or sweater to school in the morning, please check to see if the item is brought home.

EMERGENCY TELEPHONE CALLS TO SCHOOL

In using our telephone system, there is always the possibility of delay when messages are left on voicemail. If it is essential that information be given to your child immediately, or in cases of emergency, please be certain that you speak to a person when telephoning the school’s extensions. If you are unsuccessful, dial “0,” and the district operator will assist you.
BUILDING SECURITY AND CHILDREN’S SAFETY

PROCEDURES WHEN VISITING SCHOOL

In our continued efforts to ensure the safety and well being of our children, we respectfully request that every parent, guardian, and visitor abide by the following guidelines. Your cooperation and compliance will be greatly appreciated.

- Parents, guardians, and visitors must use the main entrance only when entering the school building.
- Parents, guardians, and visitors must come directly to the Main Office to sign in when entering the school building.
- Parents, guardians, and visitors may not escort their children to class in the morning or pick up their children at their classrooms at dismissal. We respectfully request that all adults remain outside the building before school and at dismissal, even on inclement days.

- Children are required to leave school grounds and go directly home immediately following dismissal unless they are participating in an after school program.
STUDENT USE OF BICYCLES

The Board of Education regards the use of bicycles for travel to and from school by students as an assumption of responsibility on the part of the students. The Board and school will not be responsible for bicycles that are lost, stolen, or damaged. All bicycles should be parked in the bike rack and secured by a lock. Bicycles must be walked on school property.

GRADING:

The South Plainfield Public School District uses a Standards-Based Report Card for all K-4 students. The Report Card is designed to communicate what students are expected to know and be able to demonstrate as related to the New Jersey Student Learning Standards. The report card will assist in students and parents being better aware of expectations in each of the academic areas. We believe that your understanding of expectations and how well your child is progressing is very important to the learning process. We look forward to working together to provide your child with the knowledge and tools to be successful and to reach his or her greatest potential.

**HOMEWORK POLICY**

The South Plainfield Board of Education recognizes the need for students to actively pursue homework as a further extension of their classroom activity. The Board, therefore, directs that homework shall be assigned in kindergarten through twelfth grade. Homework should stimulate the intellectual development of the student, and create and broaden desirable interests and habits. It should be an outgrowth and extension of meaningful classroom activities and help the pupil to learn how to study. Homework should never be assigned for punitive reasons. The teacher should provide help in developing good study skills, provide for individual differences and abilities, and make certain that homework assignments are purposeful, clear, and have real meaning for the pupil. Homework should be explained in class to enable pupils to ask questions and to receive any initial assistance needed. The student should assume a willing responsibility for completion of homework and should make certain that he/she understands the purpose and requirements. The student should use study time properly and efficiently.

The parent/guardian should try to provide a home atmosphere with proper facilities that are conducive to good study. The parent/guardian should encourage the student to study and to complete all homework assignments. Parents/guardians should give only that kind of assistance and guidance,
which will enable the student to think for him/herself in completing homework assignments. There should be a mutual understanding of purpose between the home and school.

The procedure and practices utilized to implement this policy is reflected in the following:

- **Kindergarten**

  Homework is assigned and checked, but not graded. If children do not complete their homework, parents/guardians are contacted.

- **Grades 1 and 2**

  Homework is assigned, checked and often corrected, but not graded. Students are expected to complete homework to the best of their ability and submit it on time. If students do not have their homework, they are expected to make it up. Sometimes students are asked to stay in during recess to complete work missing. Teachers notify parents/guardians when homework is not submitted. The amount of time allocated should increase through the grades from twenty minutes in grade one to thirty minutes in grade two.

- **Grades 3 and 4**

  Homework is assigned, checked and often corrected, but not graded. Students are expected to complete their homework to the best of their ability and submit it on time. If students do not have their homework, they are expected to make it up and may be kept in at recess or after school to complete the task. Homework should be regularly scheduled, should require between forty and forty-five minutes of preparation daily, and should be based on the needs and abilities of individual pupils.

**CURRICULUM AND INSTRUCTION**

The New Jersey Department of Education has developed and issued Common Core State Standards and Frameworks for Language Arts; Mathematics; Science; Social Studies; Comprehensive Health and Physical Education; Visual and Performing Arts; Technological Literacy; Career Education and Consumer, Family, and Life Skills; and World Languages. Additionally the State of New Jersey has adopted the Common Core Standards for English Language Arts and Math. These documents contain specific benchmark proficiencies for each grade level and are the standards utilized in formulating NJ ASK tests. The South Plainfield School District has established curriculum guides for each subject area that are aligned with these Standards. Textbooks for subject areas are selected by teacher committees and approved by the Board of Education.

The elementary school curriculum includes instruction in reading, language, writing, spelling, vocabulary, mathematics, science, social studies, handwriting, health, physical education, art, music, library, and computers. Kindergarten through fourth grade students participate in Spanish instruction. Emphasis is placed on the development of study skills, independent and critical thinking, creativity, personal responsibility, and doing one’s best in every endeavor.
RUBRIC SCORING

In most subject areas, rubric scoring is utilized to measure students’ understanding of specific content, as well as their ability to express their ideas clearly and correctly in writing. Rubric scoring is also used in the assessment of projects, designating specific expectations and guidelines.

INSTRUCTIONAL SUPPORT

For those students who meet the District’s criteria for Instructional Support Services, and based on the severity of need, support from the Instructional Support teachers will occur in one or more of the following ways:

- In-class support, with direct instruction being provided by either the classroom teacher or the instructional support teacher;
- In-class, flexible grouping of students on the teaching* of specific skills based on data
- In-class team teaching;
- One-on-one instruction, in or out of the classroom; and
- Pull-out instructional groups that serve as a double dose of instruction (not replacement) *preteaching new or reteaching already-taught concepts

Based on the data collected, students qualifying for Instructional Support Services will be assisted in a cyclical fashion. During the 9-12 week cycle, students will be reassessed and their level of instructional support reevaluated. Some students may need little or no additional support for following cycles, while others (based on assessment data, academic performance and/or teacher recommendation) may enter or remain in the program.

SCHOOL DRESS

The attire chosen by the student is the responsibility of that individual and his/her parents or guardians. Students are expected to attend school attired in a manner that is not distracting to teachers or other students and that is not detrimental to the educational process of the school. Students are required to wear shoes at all times. The wearing of hats, dark glasses, revealing clothing, or accessories which may be construed as weapons, are not permitted in the school building. Furthermore, students will not be permitted to wear bizarre, grotesque or outlandish fashion, including the condition of the hair that will disturb or distract from the learning process. When a student’s appearance creates a disturbance or distraction from the learning process, the parents or guardians will be contacted. (Policy No. 5511)

PLAGIARISM

Plagiarism consists of presenting the expressed thoughts, ideas, and writings of another person or source as one’s own. Students should be aware that plagiarizing does not only concern copying verbatim the words of an author or written sources without proper documentation. It also involves paraphrasing the opinions and statements of others without giving due credit to the source(s). Teachers will discuss the issue of plagiarism and the possible penalties for same with their classes at the beginning of the school year, including copying from a neighbor.

Plagiarism is considered a form of stealing as well as cheating; therefore, plagiarism is an unlawful act requiring disciplinary action. The penalty for plagiarism is a grade of zero on the particular assignment and the reporting of the incident to school administrators and to the student’s parents or guardians. A parental conference with school officials may also be required.
STUDENT DISCIPLINE

As stated in our District’s Governance Manual, the Board of Education believes that the best discipline is self-imposed, and students should learn to assume responsibility for their behavior and consequences of their actions. As parents and educators, we all recognize and are diligent in our efforts to instill in each of our children the understanding that they are accountable for their behavior. For the most part, our children are respectful and do their very best to conform to the rules and expectations of our schools.

In an effort to clearly define our expectations for student behavior and provide consistent reinforcement of those expectations, each school has established specific guidelines and procedures for student behavior. We are committed to the concept that positive reinforcement of good behavior is the best way to learn responsibility, but recognize that there are times when such methods prove ineffective in helping students.

The right to an education brings with it the responsibility to comply with the rules that have been established by the law for the governance of schools. (Title 18A)

Specific infractions of school rules include but not limited to:

- Gum chewing
- Hats worn in the school building

- Suspension
  Suspension is a temporary exclusion of a student, by the school principal, for infractions of school rules and regulations. It may take place within as well as outside school facilities. Parents will be notified of such action and will be given the opportunity to meet with the principal regarding reasons for the suspension.

STUDENT SERVICES

HEALTH PROGRAM

All students will be weighed and measured once every school year. All students will be given a vision test and a hearing test. If at any time during the year parents/guardians feel that their child is having difficulty seeing or hearing, please refer the child to the nurse. It is recommended that children have a physical examination by their private physician at age seven.

USE OF MEDICATION

Diagnosis and treatment of illness and prescribing of drugs and medication are not the responsibility of the school. Medication for a student during school hours will be permitted only when failure to take such medicine would jeopardize the health of the student or the student would not be able to attend school if such medicine were not made available during school hours.

All medication must be brought into the school nurse by the parent/guardian. The medication should be brought to the school in the original container, appropriately labeled by the pharmacy or physician. No medication may be self-administered. There will be no medicine permitted in the classroom.

The school nurse cannot give over-the-counter drugs unless accompanied by a doctor’s note stating the name of the medicine, time, dosage, and duration.

Medication shall be administered in accordance with the following guidelines:

1. Pupils requiring medications at school must have a written statement from the family physician showing the type, dosage, and purpose of the medication, and a written statement from the parents/guardians giving permission to give medication prescribed by the family physician.
2. The school physician must approve any note from a family physician requesting that medication be given to a student.
3. The school physician should be advised of any medication being taken by a child prior to or after school, particularly those medications that might cause a change in behavior.
4. Requests from parents/guardians and family physicians must be sent to the medical inspector. After approval or rejection, he/she will notify the administration and the coordinating nurse of the decision.
PROVISIONS FOR EXTENDED ILLNESS

Any student who will be absent for an extended length of time will be eligible to receive a home tutor. The parents should contact the principal, and present a doctor’s note stating the child’s condition and capabilities, and the request for a home tutor. The principal will present the note and the request to the administrator in charge. The teacher (tutor) will be assigned and will work out a convenient time, after the close of school, for the parent/guardian, child, and teacher.

PEER CONFLICT MANAGEMENT

As children grow and socialize, it is essential that they develop skill in the ability to resolve differences and disputes with their peers. In a society in which it is necessary for adults to supervise children at every turn, the normal development of these skills through sand lot ball and playground games seems to be limited. Perhaps the lack of practice in resolving conflicts in a socially acceptable and positive manner somehow contributes to the violence displayed by so many young people today.

In an effort to develop the skills of compromise and conflict resolution at an early age, a Peer Conflict Management Program is implemented in each school. After an introduction and training, students participate as peer conflict managers. If problems arise during AM socialization or lunchtime recess, students are directed to seek the help of a peer conflict manager. The manager listens and attempts to assist students in achieving a resolution. Students having the conflict agree, in advance, to abide by the following rules:

1. State their accounts of the situation without interrupting the other student(s).
2. Be as honest as possible.
3. Be respectful of the other student(s).
4. Come to a fair resolution with the help of the conflict manager.

If the conflict is not resolved, the Student Assistance Counselor will intervene. If the conflict is still not resolved, the situation is referred to the principal.

SPECIAL SERVICES

When children are in need of assistance or help because of poor academic performance, behavioral problems, socialization or emotional concerns, physical impairments, or learning disabilities, many resources are available in each elementary school, including the following:

- Student Assistance Counselor
- Intervention and Referral Services (I&RS) Committee
- School Nurse
- Speech Teacher
- Occupational Therapist, as needed
- Physical Therapist, as needed
- Child Study Team, as needed
- Basic Skills Instructors
- Special Education Teachers

Upon recognizing that a child is in need of assistance, the teacher or parent/guardian should contact the Student Assistance Counselor and/or the principal to discuss the best resource/team to approach.
in order to help the child. In most cases, children are referred to the Student Assistance Counselor and/or Intervention and Referral Service Committee (I&RS).

**INTERVENTION AND REFERRAL SERVICES (I&RS)**

The purpose of the Intervention and Referral Services (I&RS) Committee is to support teaching staff in working with various learners in their classroom by using a problem based approach to addressing student’s difficulties. The Committee will assess the student's problems and develop a specialized program using a variety of methods to assist the child, which may include:

- Identify the issue
- Identify targeted instructional strategies
- Creating an action plan
- Counseling/group counseling
- Modifications in academic programs/monitoring
- Section 504 eligibility
- Extra academic help
- Parent consultation
- Behavior modification program
- Outside agency referral

**STUDENT ASSISTANCE COUNSELOR**

The Student Assistance Counselor (SAC) in each building is available to help students and consult with parents/guardians. The counselor will meet with students on their own or at their parent’s/guardian’s request, or as part of the I&RS plan, to listen, counsel, and/or advise depending on the expressed needs of the child. Individual counseling, group counseling, classroom visitations, discussions with outside agencies and parents/guardians, and Section 504 implementation are all within the responsibilities of the Student Assistance Counselor.

**SECTION 504**

Section 504 of the Rehabilitation Act of 1973 is a non-discrimination statute enacted by the United States Congress. The purpose of the Act is to prohibit discrimination on the basis of disability, and to assure that disabled students have educational opportunities and benefits equal to those provided to non-disabled students.

A student eligible under Section 504 has a physical or mental impairment, which substantially limits a major life activity such as learning, self-care, walking, seeing, hearing, speaking, breathing, working, and performing manual tasks. If a parent or teacher believes that a child is eligible, they can initiate a referral by speaking to the student assistance counselor who serves as the Section 504 coordinator in each of the elementary schools. The 504 compliance officer for the district is the Director of Guidance.

**CHILD STUDY TEAM REFERRALS**

The Child Study Team serving each elementary school consists of a learning consultant, social worker, and school psychologist. Students are referred to the Child Study Team after consultation with parents/guardians. Upon completion of the evaluation, the Child Study Team will meet with the
parents/guardians to discuss their findings and to provide recommendations for an individual educational plan, if appropriate.

**SPEECH TEACHERS**

Speech specialists are available in each school to screen and test students, and provide instruction to correct speech problems identified. The speech specialist will create an individual education plan for each child in need of assistance.

**SPECIAL EDUCATION TEACHERS**

Special education teachers implement and monitor a child’s Individual Educational Plan (IEP). This is completed in coordination with the Child Study Team and the school principal. Programs may include: modifications of instruction, resource center, in-class support, individual or small group instruction, or self-contained instructional classes.

**CO-CURRICULAR ACTIVITIES**

**INTRODUCTION**

The purpose of all co-curricular activities is to provide enrichment which will nurture growth and development, and which will encourage creativity and exploration. The elementary schools provide co-curricular experiences and opportunities in student government, the arts, academics, creative skills, and community service. Students are encouraged to actively participate in all co-curricular activities that meet their needs, interests, and talents. The experience will provide the opportunity for socialization and planning, organizing, and self-realization. Students will hear more about co-curricular programs as the school year progresses.

**SAFETY PATROL**

The Safety Patrol is composed of boys and girls in fourth grade. Their duties and responsibilities include: monitoring morning and recess lines, monitoring the entrances and exits of the building, and monitoring the hallways. Participants are supervised by a safety patrol advisor.

**STUDENT COUNCIL**

The Student Council is made up of boys and girls in fourth grade at Riley and Roosevelt Schools, third and fourth grades at Kennedy School, and first through fourth grades at Franklin School. Representatives from each homeroom and Student Council officers are elected. The Student Council suggests and organizes community service projects, school improvement activities, and fun events. Student Council advisors supervise all endeavors.

**LAMP ENRICHMENT PROGRAMS**

Special enrichment programs are offered in language arts, music, and art for invited third and fourth grade students who have demonstrated progress in the content area. Students may be invited to participate in one, two, or all of the content programs. Meetings are scheduled for morning or afternoon sessions.
CHORUS

The chorus in each school is comprised of fourth, or third and fourth grade children who like to sing. The chorus rehearses one day each week before school, after school, or during recess, and performs at the holiday and spring concerts.

CLASSROOM PARENTS

At the beginning of the school year, parents will be contacted by the school PTA/PTO or PTSO to be asked to volunteer to be homeroom parents. These parents are asked to assist in the planning of class parties and activities, as well as to serve as direct contacts between the school, PTA/PTO/PTSO, and the home.

A. Policy Statement

The Board of Education prohibits acts of harassment, intimidation, or bullying of a pupil. A safe and civil environment in school is necessary for pupils to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a pupil’s ability to learn and a school’s ability to educate its pupils in a safe and disciplined environment. Since pupils learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s) or adoptive parent(s), legal guardian(s), foster parent(s), or parent surrogate(s) of a pupil. Where parents are separated or divorced, "parent" means the person or agency which has legal custody of the pupil, as well as the natural or adoptive parent(s) of the pupil, provided such parental rights have not been terminated by a court of appropriate jurisdiction.

B. Harassment, Intimidation, and Bullying Definition

"Harassment, intimidation, or bullying" means any gesture, any written, verbal or physical act, or any electronic communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents:

1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability; or

2. By any other distinguishing characteristic; and that

3. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3, that substantially disrupts or interferes with the orderly operation of the school or the rights of other pupils; and that

4. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a pupil or damaging the pupil’s property, or placing a pupil in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or

5. Has the effect of insulting or demeaning any pupil or group of pupils; or

6. Creates a hostile educational environment for the pupil by interfering with a pupil’s education or by severely or pervasively causing physical or emotional harm to the pupil.

“Electronic communication” means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, tablet, net book, or e-reader.

C. Pupil Expectations

The Board expects pupils to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities with proper regard for the rights
and welfare of other pupils and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment consistent with the Code of Pupil Conduct.

The Board believes that standards for pupil behavior must be set cooperatively through interaction among the pupils, parents, school employees, school administrators, school volunteers, and community representatives, producing an atmosphere that encourages pupils to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of pupils, staff, and community members.

Pupils are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and it is the responsibility of staff to use instances of violations of the Code of Pupil Conduct as opportunities to help pupils learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with pupils shall apply best practices designed to prevent pupil conduct problems and foster pupils’ abilities to grow in self-discipline.

The Board expects that pupils will act in accordance with the pupil behavioral expectations and standards regarding harassment, intimidation, and bullying, including:

1. Pupil responsibilities (e.g., requirements for pupils to conform to reasonable standards of socially accepted behavior; respect the person, property and rights of others; obey constituted authority; and respond to those who hold that authority);
2. Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
3. Pupil rights; and

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, pupils, instructional staff, pupil support services staff, school administrators, and school volunteers, as well as community organizations, such as faith-based, health and human service, business and law enforcement, in the development/review of this Policy. Based on locally determined and accepted core ethical values adopted by the Board, pursuant to N.J.A.C. 6A:16-7.1(a)2, the Board must develop guidelines for pupil conduct pursuant to N.J.A.C. 6A:16-7.1. These guidelines for pupil conduct will take into consideration the developmental ages of pupils, the severity of the offenses and pupils’ histories of inappropriate behaviors, and the mission and physical facilities of the individual school(s) in the district. This Policy requires all pupils in the district to adhere to the rules established by the school district and to submit to the remedial and consequential measures that are appropriately assigned for infractions of these rules.

Pursuant to N.J.A.C. 6A:16-7.1, the Superintendent must annually provide to pupils and their parents or guardians the rules of the district regarding pupil conduct. Provisions shall be made for informing parents or guardians whose primary language is other than English.

The district prohibits active or passive support for acts of harassment, intimidation, or bullying. Pupils are encouraged to support other pupils who:
1. Walk away from acts of harassment, intimidation, and bullying when they see them;
2. Constructively attempt to stop, acts of harassment, intimidation, or bullying;
3. Provide support to pupils who have been subjected to harassment, intimidation, or bullying; and
4. Report acts of harassment, intimidation, and bullying to the designated school staff member.

D. Consequences and Appropriate Remedial Actions

The following factors, at a minimum, shall be given full consideration by school administrators in the implementation of appropriate consequences and remedial measures for each act of harassment, intimidation, or bullying by pupils. F. Harassment, Intimidation, and Bullying Reporting Procedure

The Board of Education requires the Principal at each school to be responsible for receiving complaints alleging violations of this Policy. All Board members, school employees, and volunteers and contracted service providers who have contact with pupils are required to verbally report alleged violations of this Policy to the Principal or the Principal’s designee on the same day when the individual witnessed or received reliable information regarding any such incident. All Board members, school employees, and volunteers and contracted service providers who have contact with pupils, also shall submit a report in writing to the Principal within two school days of the verbal report. The Principal will inform the parents of all pupils involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services. The Principal, upon receiving a verbal or written report, may take interim measures to ensure the safety, health, and welfare of all parties pending the findings of the investigation.

Pupils, parents, and visitors are encouraged to report alleged violations of this Policy to the Principal on the same day when the individual witnessed or received reliable information regarding any such incident. Pupils, parents, and visitors may report an act of harassment, intimidation, or bullying anonymously. Formal action for violations of the Code of Pupil Conduct may not be taken solely on the basis of an anonymous report.

A Board member or school employee who promptly reports an incident of harassment, intimidation, or bullying and who makes this report in compliance with the procedures set forth in this Policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.
In accordance with the provisions of N.J.S.A. 18A:37-18, the harassment, intimidation, and bullying law does not prevent a victim from seeking redress under any other available law, either civil or criminal, nor does it create or alter any tort liability.

The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, the district may consider locked boxes located in areas of a school where reports can be submitted without fear of being observed.

A school administrator who receives a report of harassment, intimidation, and bullying from a district employee, and fails to initiate or conduct an investigation, or who should have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action.

The investigation shall be completed and the written findings submitted to the Principal as soon as possible, but not later than ten school days from the date of the written report of the alleged incident of harassment, intimidation, or bullying. Should information regarding the reported incident and the investigation be received after the end of the ten-day period, the school Anti-Bullying Specialist or the Principal shall amend the original report of the results of the investigation to ensure there is an accurate and current record of the facts and activities concerning the reported incident.

The Principal shall proceed in accordance with the Code of Pupil Conduct, as appropriate, based on the investigation findings. The Principal shall submit the report to the Superintendent within two school days of the completion of the investigation and in accordance with the Administrative Procedures Act (N.J.S.A. 52:14B-1 et seq.). This information shall be provided in writing within five school days after the results of the investigation are reported to the Board of Education.
A parent or guardian may request a hearing before the Board of Education after receiving the information. When a request for a hearing is granted, the hearing shall be held within ten school days of the request. The Board of Education shall conduct the hearing in executive session, pursuant to the Open Public Meetings Act (N.J.S.A. 10:4-1 et seq.), to protect the confidentiality of the pupils. At the hearing, the Board may hear testimony from and consider information provided by the school Anti-Bullying Specialist and others, as appropriate, regarding the alleged incident, the findings from the investigation of the alleged incident, recommendations for consequences or services, and any programs instituted to reduce such incidents, prior to rendering a determination.

At the regularly scheduled Board of Education meeting following its receipt of the report or following a hearing in executive session, the Board shall issue a decision, in writing, to affirm, reject, or modify the Superintendent’s decision. The Board’s decision may be appealed to the Commissioner of Education, in accordance with N.J.A.C. 6A:3, Controversies and Disputes, no later than ninety days after issuance of the Board of Education’s decision.

A parent, pupil, legal guardian, or organization may file a complaint with the Division on Civil Rights within one hundred eighty days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.).

I. Range of Responses to an Incident of Harassment, Intimidation, or Bullying

The Board authorizes the Principal of each school, in conjunction with the Anti-Bullying Specialist, to define the range of ways in which school staff will respond once an incident of harassment, intimidation, or bullying is confirmed, and the Superintendent shall respond to confirmed harassment, intimidation, and bullying, according to the parameters described in this Policy. The range of ways in which school staff will respond shall include an appropriate combination of counseling, support services, intervention services, and other programs. The Board recognizes that some acts of harassment, intimidation, or bullying may be isolated incidents requiring the school officials respond appropriately to the individual(s) committing the acts. Other acts may be so serious or parts of a larger pattern of harassment, intimidation, or bullying that they require a response either at the classroom, school building or school district level or by law enforcement officials.

In considering whether a response beyond the individual level is appropriate, school officials shall consider the nature and circumstances of the act, the degree of harm, the nature and severity of the behavior, past incidences or past or continuing patterns of behavior, and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom, school building, school district) responses can range from school and community surveys, to mailings, to focus groups, to adoption of research-based harassment, intimidation or bullying prevention program models, to training for
certificated and non-certificated staff, to participation of parents and other community members and organizations, to small or large group presentations for fully addressing the actions and the school’s response to the actions, in the context of the acceptable pupil and staff member behavior and the consequences of such actions, and to the involvement of law enforcement officers, including safe schools resource officers.

For every incident of harassment, intimidation, or bullying, the school officials must respond appropriately to the individual who committed the act. The Board is encouraged to set the parameters for the range of responses to be established by the Principal, in conjunction with the Anti-Bullying Specialist, and for the Superintendent to follow. The range of responses to confirmed harassment, intimidation, or bullying acts should include individual, classroom, school, or district responses, as appropriate to the findings from each incident. Examples of responses that apply to each of these categories are provided below:

1. Individual responses can include positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion, law enforcement report, or other legal action).

2. Classroom responses can include class discussions about an incident of harassment, intimidation or bullying, role plays, research projects, observing and discussing audio-visual materials on these subjects, and skill-building lessons in courtesy, tolerance, assertiveness, and conflict management.

3. School responses can include theme days, learning station programs, parent programs, and information disseminated to pupils and parents or guardians, such as fact sheets or newsletters explaining acceptable uses of electronic and wireless communication devices or strategies for fostering expected pupil behavior.

4. District-wide responses can include community involvement in policy review and development, professional development programs, adoption of curricula and school-wide programs, coordination with community-based organizations (e.g., mental health, health services, health facilities, law enforcement officials, faith-based organizations), and disseminating information on the core ethical values adopted by the district Board of Education’s Code of Pupil Conduct, per N.J.A.C. 6A:16-7.1(a)2.

The district will identify a range of strategies and resources, which could include, but not be limited to, the following actions for individual victims: counseling; teacher aides; hallway and playground monitors; schedule changes; before and after school supervision; school transportation supervision; school transfers; and therapy.

J. Reprisal or Retaliation Prohibited

Examples of consequences and remedial measures for pupils who engage in reprisal or retaliation are listed and described in the Consequences and Appropriate Remedial Actions section of this Policy.

Remedial measures may include, but not be limited to, in or out-of-school counseling, professional development programs, and work environment modifications.

3. Visitors or Volunteers - Consequences and appropriate remedial action for a visitor or volunteer found to have falsely accused another as a means of harassment, intimidation, or bullying or as a means of retaliation could be determined by the school administrator after consideration of the nature,
severity, and circumstances of the act, including law enforcement reports or other legal actions, removal of buildings or grounds privileges, or prohibiting contact with pupils or the provision of pupil services. Remedial measures may include, but not be limited to, in or out-of-school counseling, professional development programs, and work environment modifications.

Model Policy and Guidance for Prohibiting Harassment, Intimidation, and Bullying on School Property, at School-Sponsored Functions and on School Buses – April 2011

Adopted: 17 September 2008
Revised: 7 April 2008
Revised: 12 May 2010
Revised: 17 August 2011 (renamed from Policy 5512.01)
AFFIRMATIVE ACTION/SECTION 504 COMPLIANCE

The South Plainfield Board of Education declares it to be the policy of this district to provide an equal opportunity for all students to achieve their maximum potential through the programs, use of facilities, and practices of its schools regardless of gender, race, color, creed, religion, ancestry, national origin, place of residence, social or economic status, or handicap. Furthermore, the Board declares it to be the policy of this district to provide safeguards to ensure that all students have equal access to facilities, academic opportunities, vocational programs, scholarships, and co-curricular activities in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

SECTION 504 POLICY AND PROCEDURES

Child Find: All school personnel, parents, and community members must be made aware of Section 504 through public notice so that all appropriate referrals can be made.

Referral Process: Referrals can be made by a teacher, parent, or any involved individual who suspects an impairment that falls under Section 504. Initial referrals will be directed to the PAC and 504 coordinator and will first be brought to PAC (Pupil Assistance Committee). The PAC will recommend evaluation for 504 for those referrals that require greater intervention and in which there is a suspected impairment under the law.

Evaluation: The evaluation team is individualized for each child and is made up of personnel having expertise in one of three areas: the child, the meaning of the evaluation data, and the accommodation and placement options. There will be at least one individual with expertise in each area. The evaluation process is also individualized for each child and always includes multiple sources of information. Possible evaluation sources include but are not limited to: teacher interviews, parent interviews, review of records, classroom observations, achievement or aptitude tests and outside
evaluations. All information is considered by the team in making a decision with regard to whether an impairment exists and whether that impairment substantially limits a major life activity when compared to the “average” student in the general population. Evaluation and eligibility will be documented and for those who are eligible an evaluation plan will be written.

**Reevaluation:** All 504 plans will be reviewed annually. Reviews may be conducted more frequently, if needed, and when there is a change in placement.

**Notice to Parents of Procedural Rights:** Grievance procedures and the right to an impartial hearing must be included.

**NOTIFICATION OF RIGHTS UNDER FERPA FOR ELEMENTARY AND SECONDARY SCHOOLS**

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age (“eligible students”) certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.

   Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes is inaccurate.

   Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

   A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

The elementary schools and the parents of the students participating in activities, services, and programs funded by Title I, Part A of the Elementary and Secondary Education Act (ESEA), agree that this compact outlines how the parents, the entire school staff, and the students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership that will help children achieve the State's high standards. This school-parent compact is in effect during school year 2017-2018.

School Responsibilities

Annual Integrated Pest Management Notice  
For School Year 2017-2018 

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. South Plainfield Public Schools has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school’s IPM Policy.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for South Plainfield Public Schools is:

Name of IPM Coordinator: Stephen Fried

Business Phone number: 908-754-4620 ext. 260

Business Address: 125 Jackson Avenue, South Plainfield, NJ 07080

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest management plan South Plainfield Public Schools may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label and does not pose an unreasonable risk to human health and the environment. Nevertheless, unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

If your child is having a problem you need to speak with his/her teacher. If you feel nothing has been resolved than you must speak with the principal of his/her school. If after speaking with the principal you feel there are still some issues you need to discuss you need to speak with the Assistant Superintendent.
September 2017

Dear Parents, Teachers, Building Occupants and Employee Organizations:

In the past, asbestos was used extensively in building materials because of its insulating, sound absorbing, and fire retarding capabilities. Virtually any building constructed before the late 1970s contained some asbestos. Intact and undisturbed asbestos materials generally do not pose a health risk. Asbestos materials, however, can become hazardous when, due to damage or deterioration over time, they release fibers. If the fibers are inhaled, they can lead to health problems, such as cancer and asbestosis.

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which requires schools to be inspect to identify any asbestos containing building materials. Suspected asbestos-containing building materials were located, sampled (or assumed) and rated according to condition and potential hazard. Every three years, South Plainfield School District has conducted a re-inspection to determine whether the condition of the known or assumed asbestos containing building materials (ACBM) has changed and to make recommendations on managing or removing the ACBM. At the last re-inspection in November, 2015 all material listed in the Management Plan as asbestos containing (or assumed to be asbestos-containing) were inspected and found to be in good condition.

The law further requires an asbestos management plan to be in place by July 1989. South Plainfield School District developed a plan, as required, which has been continually updated. The plan has several ongoing requirements: publish a notification on management plan availability and the status of asbestos activities; educate and train its employees about asbestos and how to deal with it; notify short-term or temporary workers on the locations of the asbestos containing building materials; post warning labels in routine maintenance areas where asbestos was previously identified or assumed; follow set plans and procedures designed to minimize the disturbance of asbestos containing building materials; and survey the condition of these materials every six months to assure that they remain in good condition.

During the past year, bulk sampling activities and various inspections to comply with the management plan requirements were completed.

It is the intention of South Plainfield School District to comply with all federal and state regulations controlling asbestos to take whatever steps are necessary to ensure students and employees a healthy and safe environment in which to learn and work. You are welcome to review a copy of the asbestos management plan in school district administrative office or administrative office of the school during regular business hours. Mr. Thomas Wiggins, Supervisor of Buildings and Grounds, is our Designated Asbestos Program Coordinator, and all inquiries regarding the asbestos plan and asbestos-related issues should be directed to him at 908-754-4620, extension 662.

Sincerely,
